To whom it may concern.

As the person in charge of the tourism office of the Saint Martin office, I can attest to the professionalism of Mrs. Maria Laura Romero Mirci in her art of coordinating the indicated marketing actions that achieve the positioning of a destination.

Maria Laura has full knowledge of the Argentine market and she is very responsible and knowledgeable about its timing for the proposal of marketing actions, offering proposals that not only adapt to the client's needs but are achievable.

She also has the capacity and ability to permanently adapt to the needs of her clients and to get involved in such a way as to provide the necessary response in her market related to the destination it represents.

She is without a doubt a professional to recommend.
